## Resolutions adopted at the InPDUM meeting on 15 August 2011,

In defence of all Africans arrested and jailed by the British government, for daring to rebel against the colonial conditions imposed on us, which started on 6 august 2011

The participants have voted for the following resolutions:

1. To set up a campaign in defence of the victims of repression of the rebellion we call on the community to set up and support a national campaign for the defence of those arrested and jailed by the brutal state repression,
2. We in the Black community demand an end to Stop and search, DNA Swabs and police violence against the Black Community,
3. We call for the immediate disarming of the police in the black community,
4. We demand Reparations to the family Mark Duggan,
5. We demand the naming and revealing of the faces of the team of the police officers, who participated in the shooting of Mark Duggan
6. We call for the suspension of those police officers involved in the shooting of Mark Duggan
7. We call for the arrest of the police officer/s who fired the bullets, which killed Mark Duggan, on suspicion of murder,
8. We demand an independent investigation into the murder of Mark Duggan –the IPCC is NOT independent,
9. We consider the British response to the just rebellion of African people as a collective punishment, which will not solve the problems but aggravate them, and demand their immediate cancellation;
10. We oppose any Benefit cuts and any eviction from social housing for Africans convicted of participation in the rebellion,
11. We are calling on the non-African population, white, Asians and other in this country to unite with our demands to end police containment of the black community, and support instead, a genuine economic development of the black community,

12. We demand that the State reopens all the youth centres already closed and restore all youth services,
13. We demand that the state restore all local authority funding levels. The bankers have stolen billions and continue to give themselves hefty bonuses at the expense of African people and all other oppressed and poor people in society,
14. We demand that the rich and the corporations pay the appropriate levels of tax instead of scrounging off the African community and other poor and oppressed working people,
15. We demand the immediate and unconditional release of all those black people arrested or jailed with no criminal prosecutions! All charges must be dropped immediately,
16. We demand the immediate withdrawal of all draconian measures introduced as responses to the rebellions,
17. Production of a statement to denounce the collaboration of David Lammy, Dianne Abbott and others with the British colonial repression of the black community,
18. Update information on what is happening to those already arrested and jailed,
19. Identify people who have been arrested, Organise our own legal advice to assist in the defence of those arrested and jailed,
20. Construct a petition on line to demand the release of all protesters,
21. We demand an international investigation into the arrest and jailing of Africans in the hands of the British government,
22. We are in solidarity with all peoples of oppressed peoples and nations, who are fighting for self-determination from imperialism around the world,
23. We demand reparations to the African community in the UK.
